

OLAYODE BOLADE EMMANUEL

Full-Stack Engineer | React · Node.js · TypeScript · React Native

Lagos, Nigeria (Remote / Hybrid) • +234 814 686 2110 • Olayodebolade963@gmail.com • [LinkedIn](#) • [GitHub](#) • boladeolayode.xyz

PROFESSIONAL SUMMARY

Full-Stack Engineer with 4+ years shipping production web and mobile applications for UK and Nigerian clients across healthcare, e-commerce, legal tech, and logistics. Run a care-management platform used daily by 15 staff serving 60+ care clients, and an e-commerce store processing 30 orders/day (₦3–5M monthly revenue). Currently lead technical delivery at an organization and coordinate developer teams as a contract project manager. Strong across React/Next.js frontends, Node.js and PHP APIs, SQL schema design, and workflow automation that has cut manual operations by up to 80% and also owning features end-to-end from problem definition to deployment.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, React Native (Expo), Vue.js, Tailwind CSS

Backend: Node.js, Express, PHP (Laravel), Python, REST APIs, Authentication & RBAC

Databases: PostgreSQL, MySQL, Supabase, schema design & data modelling

Automation & Data: Google Apps Script, PDF/DOCX pipelines, third-party API & payment integrations (Monnify, Paystack)

Tools & Delivery: Git/GitHub, GitHub Actions (CI/CD), Docker, Figma, WordPress/WooCommerce, async documentation

WORK EXPERIENCE

Technical Lead / Full-Stack Developer — xDigital Solutions *Remote* | Jan 2026 – Present

- **Twale (PAKEJ):** Lead development of a logistics SaaS for Nigeria's motor-park delivery network — Next.js web app and React Native mobile app covering booking, tracking, and multi-party settlement workflows.
- **FoodBank SaaS CRM:** Architected a multi-role platform (Laravel, Next.js, MySQL) with companion React Native app — inventory, credits, subscriptions, and redemption flows — deployed across separate production environments.
- Manage the studio's infrastructure: 10+ domains and multiple hosting environments — DNS, SSL, deployments, and uptime across client and internal products.

Project Manager / Developer (Contract) — Chromite Solutions *Lagos / Hybrid* | Apr 2026 – Present

- Coordinate freelance developer teams on client projects — scoping, task breakdown, code review, and delivery timelines — while contributing hands-on development.
- Delivered a Nigerian classifieds marketplace, owning both the build and direct client communication.

Freelance Full-Stack Engineer — Upwork *Remote* | Mar 2022 – Present

- Built and maintain a care-management platform (WordPress + React Native/Expo app) used daily by 15 staff managing 60+ care clients; designed the RBAC permission hierarchy and family-access features, and led incident response on a server-side compromise (database cleanup, credential rotation, security hardening).
- Engineered a WooCommerce store now processing ~30 orders/day with ₦3–5M monthly revenue — payment integration (Monnify), custom order lifecycle and branded transactional emails, shipping logic, and GA4/Klaviyo analytics.
- Ship React Native apps to Google Play through GitHub Actions + EAS build pipelines, resolving signing, versioning, and store-compliance issues end-to-end.

Senior Web Developer — Legal Digital NG *Lagos/ On-site* | Mar 2025 – Jan 2026

- Led platform improvements for a legal-tech business: user dashboards, membership and payment workflows, frontend restructuring, and internal automations.
- Built Python and Google Apps Script automations that reduced repetitive manual data entry and document handling by 70%.

UI/UX Design Intern — Vlay Media *Nigeria* | Jan 2023 – Jan 2024

- Designed interfaces and prototypes in Figma, translating vague product ideas into clear flows and component structures, and collaborated with developers on accurate implementation.

SELECTED PROJECTS

- **MeetPie — Dating App (React Native):** Built and shipped to Google Play with a full CI pipeline (GitHub Actions + EAS) — signing, versioning, and store compliance handled end-to-end.
- **Homefoodly.com — Shopify Store (live):** Full build of an African groceries marketplace — theme customization (Liquid, HTML/CSS/JS), products, payments, and shipping configuration.
- **Document Data Pipeline (Python):** Automation converting raw legal documents into structured, publication-ready outputs — cutting manual processing time by 80% using python-docx and PyPDF2.

EDUCATION & CERTIFICATIONS

- B.Agric, Agricultural Economics — Obafemi Awolowo University, Ile-Ife (2023)
- Google UX Design Certificate (2023) • Figma UI/UX Design Essentials, Udemy (2023)
- Financial Modelling & Valuation Analyst (FMVA) — Corporate Finance Institute (2022)
